Procedures for Downgrading and Release of
TALENT Materials on the USSR Acquired
Prior to May 1, 1960

1. Release of materials, reports, and information obtained through overflight of the USSR prior to 1 May 1960 in the TALENT Security Control System is authorized after such materials have been downgraded to SECRET and bearing the dissemination limitation of 

25X1C

 The release and downgrading will be in accordance with the procedures set forth below. The senior intelligence chief in each agency may make distribution to these three governments only when the materials in question are of direct relevance to the mutual interests of the United States and the recipient government.

Procedures for Downgrading

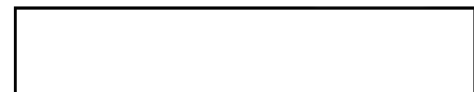

2. The senior intelligence office in each agency will define the substantive requirements to guide the selection of materials and reports to be downgraded and released.
